

### **REMARKS**

Applicants have amended the claims to more clearly distinguish the present invention from the prior art as noted by the Board of Appeals in the parent application. In particular, the independent claims have been amended to clearly set forth that the images originate from more than one source and the icon is associated with at least one of said plurality of images which uniquely identifies the source from which said at least one associated image originated. As the Board of Appeals noted on page 11 of the decision in the parent application, the prior art does not provide each source with a unique ID and does not distinguish one source from among a plurality of sources. The independent claims as currently set forth, clearly provides that the images originate from more than one source and that the icon is uniquely associated and uniquely identifies the source from which the associated image originated.

It is believed that the claims in the present form are patentably distinct over the prior art and accordingly the Applicants respectfully submit that the application is in condition for allowance and such action is respectfully requested.

Respectfully submitted,
